\$1.00 Per Year in Advance

J. AMBROSE PETTIT SUDDENLY PASSES AWAY ON SUNDAY AFTERNOON LAST

He was in Excellent Health and Spirits on Saturday but on Arising Sunday Morning was Seized with a Stroke from which he Never Rallied.

56 YEARS OF AGE

"Brose" was one of the most prominent fruit growers in this District and took great interest in Everything Pertaining to the Welfare of the Community.

The citizens of GRIMSBY and North GRIMSBY were greatly shocked Sunday evening, July 16, to learn of the sudden death of Mr. J. Ambrose Pettit, one of the most prominent citizens of this locality.

The deceased gentleman had been in poor health about six months ago, but had sufficiently recovered so that he was rapidly regaining his former robust health and when his death occurred almost without a moment's warning, the shock to his friends and relatives was very great indeed. He had been in the Village of GRIMSBY several times during Saturday and spent Saturday evening on the streets chatting and talking with his friends, and feeling unusually well. He retired late Saturday night in better health than he has enjoyed for the past six months.

About nine o'clock Sunday morning, when preparing to dress, he was seized with paralysis and his condition became very serious. Although he remained conscious for about an hour and a half it was with difficulty that he could talk. About an hour and a half after the seizure Mr. Pettit became unconscious and remained so until the time of his death which occurred at three o'clock in the afternoon. Thus passed away peacefully and without pain, one of the best known men in social circles in the County of Lincoln or Westmorland, at the early age of fifty-six years.

The late J. Ambrose Pettit, or as he was popularly known, to all his friends "Brose" was born in the Township of Lincoln, Ontario, and was fifty-six years of age at the time of his death.

His father, the late Jonathan R. Pettit, was one of the most successful grain and stock farmers in this part of the country, and in fact became known throughout the Province as a breeder of high class, pure bred Shorthorn Durham cattle in the days when this breed became so popular and high-priced in Canada. The late J. R. Pettit was so successful that he was able to leave his two sons, J. Ambrose of GRIMSBY, and Chetwood of Stamford, Ont., in very comfortable circumstances.

After the death of his father, J. Ambrose and old a considerable quantity of the large farm, invested the money, and settled down to the quiet life of a prosperous fruit farmer. He was a man of very regular habits, being an early riser and taking a keen delight in the work of his farm, and in all social affairs in the locality. He was a man of excellent judgment on any subject that he took an interest in. He was well versed in the varieties of fruits, methods of growing, and was an enthusiast on flowers and particularly roses. It will be remembered that his beautiful row of rambler roses nearly a quarter of a mile long, attracted universal attention from citizens and from travellers for years.

Although he was never a candidate for any office he took a keen interest in municipal affairs and politics being a staunch conservative, the same as his father before him. He was a liberal supporter of sports such as hockey, cricket, baseball and horses, he himself, being formerly a first class cricketer and his brother Chetwood one of the best in the olden days, when the GRIMSBY Cricket Club toured the Province.

He was a leader in social affairs, taking a very keen interest in dancing, and was always welcomed at parties, at homes and assemblies even by people very much younger than himself.

The late J. Ambrose Pettit was married in 1882 to Miss Janet Scott, (step daughter of the late D. Burkholder), then of GRIMSBY, formerly of New York State, she survives him. The funeral took place Tuesday afternoon, July 18th, at three o'clock and was very largely attended by friends, relatives and acquaintances. Service was conducted at the house and in Queen's Lawn Cemetery by the Rev. J. A. Ballard, Rector of St. Andrews Church.

The deceased gentleman is survived by his wife his three daughters, Mrs. H. Wolfenden and Mrs. J. M. Powell, of GRIMSBY, and Eleanor at home, and one brother, Chetwood of Stamford, Ontario.

The pallbearers were: C. A. P. Smith, Murray B. Smith, Robert M. Smith, F. W. Pottinger, A. P. Hawke and David Allen.

LIEUT. ALFRED RIMMER KILLED IN ACTION

The casualty lists last Tuesday contained the name of Lieut. Alfred Rimmer, GRIMSBY, killed in action. Very little is known of Lieut. Rimmer, in GRIMSBY, very few, if possibly any, ever having met the gallant young man. He is a son of Mrs. Rimmer of Robinson St. She is moving here with her family from Brighton about a year ago. Lieut. Rimmer was born in England and came to Canada when quite a young boy. He enlisted for Overseas with a Toronto battalion, giving up a good position in that city to do so. Two brothers of the dead Lieutenant are also on Active Service with the Canadians. One of them now being in hospital wounded.

AND "SMOKE" WENT UP THE CHIMNEY JUST THE SAME

Well! Well! Well! And the Tacksters had to bite the dust the second time at the hands of the "Scum of the Parish," but this time the score was only 14-13.

Mr. Roy Norton who has pitching aspirations as a Mathewson, after being trimmed to a frazzle last week, tried to come back and retrieve his lost laurels but it was no go. He was dickered in the sixth inning and the great and only "Smoke" Melville C.O.D. was rushed into the breach, but the "Smoke" went up the chimney just the same.

In the last half of the eighth the Tacksters tied the score up, and in their half of the ninth made a lead of one but the "Scum" came back strong and pounded out two runs winning the titanic struggle by an eyelash.

Mr. Edward St. John, once a noted ball player from around these dignities, but now a fighting Trooper from Col. Brook's C.M.R.'s was home for a brief stay and did the receiving for the "Scum" with "Dead-Trust" Walker doing the throwing.

It was some game, but our only regret is that we are beginning to tell on the great "Smoke" and like Mathewson he will soon be relegated to the minors. A trial is now on to trade him to the Yankees for a lefthander and a pitcher of equal value.

INFANTILE PARALYSIS What is it?

The following instructions regarding Infantile Paralysis are issued by the Provincial Board of Health:

Infantile Paralysis, also called Anterior Poliomyelitis, is a communicable disease chiefly of children between the ages of two and fourteen years. Older children and adults may also be affected by the disease. The cause is unknown. It is known, however, that the agent causing the disease is present in the secretions of the nose and mouth and in the intestinal tract from being swallowed. The disease is epidemic in some United States cities and in at least one town in Ontario.

It is believed that Infantile Paralysis is spread from one child to another by means of the secretions of the nose and mouth or direct transfer. It is possible also that it is spread by flies which have been in contact with cases of the disease may harbour the contagion and give it to others without contracting the disease themselves; that is they are "carriers."

What To Do About It? (1) Every CASE must be quarantined for a period of SIX weeks. (2) All children who have been in contact with a case must be quarantined and kept under observation for a period of TWO weeks.

(3) Adult members of the family who are wage earners may be allowed to go about their work subject to the regulations of the Provincial Board and on the discretion of the Medical Officer of Health.

(4) Where there is an outbreak, gatherings of children, such as picnics, picture shows, and playgrounds, should be prohibited.

The source of origin of each case should be carefully ascertained in order that proper quarantine may be maintained.

(5) In houses where cases appear all doors and windows should be screened, the premises kept clean, and so accumulation of garbage or waste prohibited.

(6) All cases should be at once notified to the Medical Officer of Health, and by him to the Chief Officer of the Provincial Board.

(7) Mild cases, showing slight headaches, rise of temperature and vomiting persisting for a few days, with slight muscular weakness and

The members of the Masonic order gathered at the lodge room, and joining the funeral procession in the Village marched to the cemetery where the Masonic funeral ceremonies were conducted.

LIEUT. JOHNSON DOING WELL

Further information has been received about the wounding of Lieut. Johnson. On Wednesday afternoon last the following telegram was received by his mother, Mrs. Theo. Johnson:

Mistress Johnson, Grimsby, Ont. In South London General Hospital, Denmark Hill, London, slight wound. A later cablegram states that he would be a bayonet thrust in the fleshy part of the thigh, and that he is progressing very favorably.

MORE NAMES FOR HONOR ROLL

GRIMSBY'S Honor Roll, printed in last week's INDEPENDENT, caused a considerable amount of favorable comment amongst our readers. The people of this district knew that GRIMSBY Town and Township had supplied a lot of men for overseas, but they did not think the roll of honor was so large. This section has certainly "done its bit" and is willing to do more. The Roll printed last week is far from being complete and we would like all the people of the Town or Township who have relatives or friends from here, who are serving their King and Empire whose names do not appear on the Roll, to send them in to Supl. Grimsby at once.

Since last week the following names have been added to the Roll: Lieut. Rimmer, Alfred R. (Killed in action.) Lieut. Woodruff, W. R. Koshko, Herbert Kitchin, Edward Carr, Harry R. Rimmer, Harry

The name of "A. Knox" appearing in last week's Roll, should be R. C. Knox. He is a son of Mr. and Mrs. F. C. Knox, GRIMSBY East.

SEND IN YOUR NAMES

THE H. G. & B. FRANCHISE

The franchise giving the H. G. & B. running rights through GRIMSBY race out to-morrow (Thursday) night at midnight, July 20. Just what action will be taken by the Town Council re the granting of a new franchise is so unknown at the present time. The Town Fathers are waiting to see what the outcome of the County Arbitration will be.

The H. G. & B. and Lincoln County Council could not arrive at a suitable agreement and the matter is now going to Arbitration. The H. G. & B. in this case are taking their usual course, demanding everything in sight but are not willing to pay anything for it. They want everything their way and the County gets nothing.

The Town Council are waiting for the settling of the County end of the matter so that they can get on with it. It is a foregone conclusion that the H. G. & B. are going to do the square thing by GRIMSBY or get no franchise. They must do a number of things that need attention badly, or else get another right of way.

The High Magistrate of the H. G. & B. have run their railway and taken the people's money just as they pleased in the past, but that time is over. They must "come even" with the public from now on or else get out of business and let real railroad men run the road.

When the H. G. & B. and the Town Council come together on the franchise question, there is going to be a third party have something to say and that is the INDEPENDENT. The H. G. & B. may be able to put up a bluff and beat to the Town Fathers, but they will have the time of their sweet young lives blinding the INDEPENDENT.

We will fight the H. G. & B. on the franchise question to a finish. They will have to give better service through this district, or else get off the job.

THE CRUISE OF THE PRUSSIAN KING

Warmy sea, And the Kaiser had said to his sea and his air, "We're out for a jubilee."

Says Willie "To murder and burn and rob it surely is a treat."

But there's one thing makes me awful scared, It's the sight of the British fleet— "Or maybe, you don't know your dad, I'll show them what I'm like."

I'm just about the biggest bluff that ever crossed the pike. For I'm the mate and the captain hold and the admiral, too, you see.

I'm the gink with the iron cross from Berlin on the spree.

Then up spoke old Von Tirpitz with all his might and main.

"I've got the ships to the Kiel Canal, for I fear a hurricane."

The Kaiser sat in his boom-proof car, a cigar butt in his mouth.

And he heard the war reports come in from the east and west and north.

"Say papa, I hear a noise like guns, whatever can it be?"

"Oh, I guess it's a British man-of-war; they float on every sea."

"Say papa, I hear a row down east, whatever can it be?"

"Oh, that's the return of the Russian bear and he'll soon be after me."

"Our money is at a discount, dad, and the Turks are on the run."

And the Frenchmen put it all over us at the battle of Verdun.

The row we raised in Ireland to fool the British ruler

Has gone completely on the blink and Sir Roger's in the cooler."

"Say, boy, there's no one else in this world can run this joke like me."

I'll build about four billion ships, and live by piracy."

Then from the land of the Southern Cross, through the blinding sleet and snow,

Came some transports filled with Australian troops to add to the Prussian's woe.

Paster and thicker came the news of battles west and east.

The cigar butt dropped into the mud, and the Kaiser trothed like yeast.

"The larger beer is getting low, say daddy, there's the rub. And the British fleet is blockading us, and we are getting short of grub."

Then the Kaiser swore some German swear; till his generals stood aghast

And he took a pound of Limburger cheese and nailed it to the mast.

"Say daddy, I hear a louder noise, whatever can it be?"

"Oh, that's more of Lincoln's Grimsby boys and it means our finish, see!"

John W. McCullough,

Chief Officer of Health for Ontario.

Proclamation

I hereby proclaim Monday, Aug. 1th, 1916 to be CIVIC HOLIDAY, and I call upon the Citizens of GRIMSBY to observe it as a public holiday.

W. F. RANDALL, Mayor.

GRIMSBY, JULY 18th, 1916.

Horace Adkinson, Elda Black, Gladys Packham, Margaret Packham, Clifford Parker, Keith Young.

Smithville

Arthur Burch, Violet Davis, Clifford Hitchcock, Clinton Hitchcock, Basil Lounsbury, Matilda Olin, Marie Stuart Joyner, Gladys Lounsbury, Trembley, Phyllis Zumata.

INVESTIGATE STATE ROADS

The representatives of the County Council returned on Saturday night from their trip into New York state to inspect the roads in connection with an enlarged County Road system for the County of Lincoln.

The party was met at Niagara Falls, N. Y., by Divisional Engineer C. J. McDonough of the State Highway department, P. J. Schoenlaub, Divisional Engineer; B. E. Moses, State Engineer for the County; H. R. Hall, County Engineer for the County of Jefferson and others. Two autos left from St. Catharines and they were met by two across the river.

The whole party proceeded on their way and went from the Falls to Lockport, thence to Buffalo. The trip also included a journey to Rochester, etc. In speaking of the tour this morning County Treasurer Wismer a member of the county party, stated that anyone who made the trip could not help being impressed with the splendid roads. He spoke very highly of all the roads visited, especially of the Buffalo-Rochester road along which he stated the cars simply glided. This road which has been in constant use for the past two years does not show the wear of traffic which is somewhat heavy.

The road does not require using and is in the mind of the Treasurer a masterpiece in the line of road construction. The roads were built according to the place through which they passed, in this manner the right kind of a road was built in the right place. For the past eighteen years the Engineer's of New York state have been working on their roads and this is the reason for the excellent roads which they are able to construct at the present time.

This trip was arranged by Mr. George C. Delah, Erie County Engineer and the party was in charge of Mr. Charles J. McDonough, Divisional Engineer in charge of the State Roads.

Gifts From Fruit Growers Last Year Were Greatly Enjoyed by Wounded Soldiers in English and French Hospitals

GIVE! GIVE! GIVE!!!

This Year the Committee can Handle A Greater Quantity and Will be Pleased to Have Donations From This District

That the large quantity of fruit donated by the fruit growers of this district last year was appreciated by the people in charge of the campaign and by the soldiers in hospital, is shown in the following letter:

Hamilton, Canada,

July 18, 1916

To The Editor of the "Independent," Grimsby, Ont.

Dear Sir:— The fruit growers of the Grimsby District will no doubt be pleased to learn that through their generous gifts of fruit to the Canadian Club Fruit Campaign of last year, the success of the undertaking was more than gratifying.

It is a great pleasure to know that from the Hospitals, the Matrons, the Doctors and the wounded patients all along the line have written to those in charge to say that nothing was received in the hospitals that was half as much appreciated as the fruit put up in glass and forwarded to the Red Cross to the Overseas Hospitals. So successful was our undertaking—and only made possible by the co-operation of the fruit growers—that the Red Cross Society's Executive requested those in charge of last year's operations to assume the responsibility this year on behalf of the Canadian Red Cross Society. This we have accepted relying upon the sure support of the fruit growers of the Niagara District.

We have equipped a kitchen at 22 St. Park Street, Hamilton, having 6,000 square feet of floor space, and are in a position to handle 2,500 quarts of fruit a day. This plant is now open for the reception of all fruit growers' donations and all kinds of fruit, including apples, pears, peaches, plums, cherries, etc., and all kinds of fruit. The H. G. & B. Ry. are transporting this to us over their lines free of charge as their share of the work.

Yours very truly,
T. N. MacBeth,
Honorary Manager,
Canadian Red Cross Society,
Fruit Department.

This year, as the letter states, a larger quantity than ever can be taken care of by the committee.

At the meeting of the fruit growers on Saturday night last a committee was formed to handle the work on this end of the line and the growers have promised to supply the Conservation Department with all kinds of the choicest of fruits.

If you have any fruit that you would like to donate to this worthy work communicate at once with Mr. W. J. Drogan.

RECRUITING FOR

THE BANTAMS

Lieut. G. Walsh, of Hamilton, spent Thursday of last week in GRIMSBY recruiting for the Bantam Battalion for overseas service.

Lieut. Walsh is the chief recruiting officer for Western Ontario with headquarters at Hamilton. He would be pleased if any small men in GRIMSBY or vicinity who would like to go overseas would call on him at his office, 17 King St. East, Hamilton.

Lieut. Walsh has had good success in recruiting for the Bantams, and this Battalion will be up to strength in a few weeks, but a few more men are wanted. The size is five feet two inches and under.

APPLE CROP PARTIAL FAILURE

Ottawa, July 12, 1916.—The following information has been received by telegram at the Office of the Fruit Commissioner this morning, relative to the apple situation in Ontario:

East of Toronto the crop is very disappointing and will not exceed that of 1915. There has been very serious development of scab, and a heavy dropping of fruit in all sections. Unsprayed orchards are practically worthless on account of poor quality. There has been some damage by hail in the Cobourg district. In western and northern parts of the province there is a medium crop, but the quality is poor, particularly in western Ontario, is good only in well sprayed orchards.

Homeseekers Excursions
Every Tuesday, March to October

LOYALLY COMMEMORATING IMMORTAL FAKE AND GLORY OF WILLIAM OF ORANGE

The glorious 12th, glorious in history and glorious in weather was celebrated in St. Catharines, Wednesday with one of the most notable demonstrations in the history of the local Orangemen. The city was made the Mecca of Orangemen for the day and all believers in the cause turned out to do honour to the visitors. The Wednesday half holiday arrived at the right time many of the stores closed; many who otherwise would have been unable to participate in the great celebration were on hand. The members of the Loyal Orange Lodge, True Blues, Lady Orange, Juvenile Orange and Young Britons with their many branches and bands were present and all helped in making the celebration the success that it has been already termed.

Shortly after eight o'clock in the morning the Orangemen began to arrive in the city with their bands and they brought with them a holiday spirit. Short parades were seen during the course of the morning as the lodges marched to their various headquarters, the streets being crowded with the Orange be-ribboned men and ladies. The spectators were also out in large numbers and lined up along the sides of the street as the parade passed.

At 11 o'clock the lodges from Hamilton, Niagara Falls, Rochester, N. Y. and other points arrived in the city and made a fine showing as they proceeded to their headquarters in the city to the music of the life and drum and brass bands. Practically all the expected visitors had arrived on the scene at noon and all expectations as to the number that would be on parade were filled. There were over 75 lodges on parade. The Scarlat Knight's drill Corps of Hamilton attracted much attention.

Monster Parade
The celebration opened with the monster parade which formed at the Market Square at one o'clock. Undoubtedly this parade was one of the largest seen in this city for many years. It was stated by those in charge that the parade exceeded in magnitude the parade of Orangemen in this city four years ago. In all features it is taking on the appearance of a great success. Marching to the music of the numerous bands the 4,000 orange ribboned men and ladies in auto, made a splendid appearance as they marched along the hot streets of the city.

The line of march was from Church to Ontario to St. Paul to Queenston to Church to James to Welland and thence to the Lacrosse grounds where the sports were held. Along the line of march the streets were crowded with interesting spectators. Many flags and banners greeted the various lodges as they marched along. The flags were seen everywhere and over the streets banners were flying bearing such signs as "Welcome," "Equal Rights to all," "Special Privileges to None," "A United Canada," "One School, One Flag," and others, these pleased the marching thousands as shown by the smile that grew larger as the banners came into view.

The applause of the many spectators also cheered the paraders along as the sun unmercifully beat upon them. However the sun appeared to only cause the Orangemen to enjoy better the great day that they were celebrating.

Taken altogether the opening of the celebration was one which will long remain a subject of comment in the city. The local and visiting lodges made splendid showings and did themselves proud in the capable manner in which they marched.

At 1:30 o'clock the parade marched off from the market square in the following order:

Queen Alexandra Lady Orange Lodge No. 75, St. Catharines

HORSELESS FARMS LONG WAY OFF

Some prophets and sons of prophets who predict that horses on the farms will soon be only a memory will have passed away, and pleasing epitaphs will be carved into the stones which mark their resting places, long before their prophecies become fact. The introduction of the farm tractor will not, as some believe, remove the horses from the fields and from their pastures, "Farm Machinery" asserts.

The advent of street cars did not have that effect upon horses, neither did the bicycle nor automobile. Today there are more horses in this country than there were ten years ago, and prices are considerably higher.

The one thing that the farm tractor will do is to supply the need of power on the farms which horses cannot give. Take away the farm tractors which are in use today and several hundred thousand horses would be required to replace them, or if horses could not be had the lands would have to go uncultivated and untillied.

The number of tractors now in use will be multiplied many times within the next ten years, but there will be as many horses in this country as there are today, and prices will be even higher than now.

Farm tractors are becoming a necessity, just as electric street cars have become—the same as telephones have supplanted the telegraph in a way and have taken the place of messenger boys and quick delivery of mail. No one will agree that there are not more miles of telegraph wire in use today than ten years ago, nor can it be said that there are fewer messenger boys, yet the telephone is in almost every business house and in many households, doing work for which there was little demand a few years ago.

The farm tractor will simply fit into the greater needs of the country and will do the heavier chores and drudgery which horses are little fit for. They will not replace the horses, but will simply assist them and make life easier for them. They will also enable farmers to breed better horses because their mothers will be kept for that purpose instead of spending half or more of their time in doing heavy work. Let us not dream too long upon the practicability of the horseless farm. It is a long way off, as yet.

THE HORSE'S POINT OF VIEW IN SUMMER

If a horse could talk he would have many things to say when summer comes.

He would tell his driver that he feels the heat on a very warm day quite as much as he if he could read a thermometer.

He would say: "Give me a little water many times a day, when the heat is intense, but not much at a time if I am warm; if you want me to keep well don't water me too soon after I have eaten."

He would say: "When the sun is hot and I am working let me breathe once in a while in the shade of some house or tree; if you have to leave me on the street leave me in the shade if possible. Anything upon my head, between my ears, to keep off the sun, had for me if the air cannot circulate freely underneath it."

He would talk of slippery streets and the sensations of falling on cruel city cobblestones—the pressure of the lead pulling him to the fall, the bruised knees and wrenched joints, and the feel of the driver's lash.

He would tell of the luxury of a fly net when at work and of a fly blanket when standing still in fly season, and of the boon to him of screens in the stable to keep out the insects that bite and sting.

He would plead for as cool and comfortable a stable as possible in which to rest at night after a day's work under the hot sun.

He would suggest that living through a warm night in a narrow stall neither properly cleaned nor bedded is suffering for him and poor economy for the owner.

He would say that turning the hose on him is altogether too risky a thing to do unless you are looking for a sick horse. Spraying the legs and feet when he is not too warm on a hot day he would find agreeable.

He would say: "Please, please out my eyes and nose and dock when I come in tired and dusty at night, and also sponge me with clean, cool water under the collar and saddle of the harness."

WEANING THE FOAL
If the foal has been properly cared for during the summer months, being fed a little grain in addition to the roughage and dam's milk, weaning time will be merely a matter of separation.

The time of weaning will vary with conditions, but the best rule is to allow it five to seven months as the work of the mare varies from heavy to light, but if possible don't wean the foal before four months.

The important stage of the youngster's life is now at hand. Separation from the dam must be complete to be satisfactory, and the colt kept in a small lot fenced either with boards or poles. While all colts may not run into the wire, the one that tangles itself in the wire is invariably the most valuable.

The weaning that is most successfully accomplished is the least through which the colt suffers the least setback in growth. If at weaning time the colt can eat half allowance of grain, 2 to 3 pounds of oats or 1 1/2 pounds of oats and 2 pounds of ground barley mixed together, with plenty of clean alfalfa or timothy hay, it will continue growing and come to fret for its dam.

Weaning time is the best time to gentle the youngster. Catch them, handle carefully, halter them and teach the milo head. Also inspect their feet and gentle them in regard to handling the feet. If colts are carefully handled a few times each day for several days, it will greatly simplify the breaking later on.

Eighty-five thousand and satisfied owners against unproved claims and rosy promises

You judge a man by what he's done—not by what he says he intends to do. Judge a motor car the same way.

Eighty-five thousand and more Canadian built Fords have "made good" in actual service. Since 1904 this sturdy, economical car has stood the test—not only in Canada, but throughout the British possessions.

Every passing year has seen Canadian Ford sales mount by thousands of cars—because, under almost every conceivable condition, the car has proved itself a splendid all-round utility.

It has sold on its record for dependable and economical performance—not on the rosy promises of its makers. The man who selects a Ford is backed in his judgement by more than eighty-five thousand satisfied motorists in the Empire.

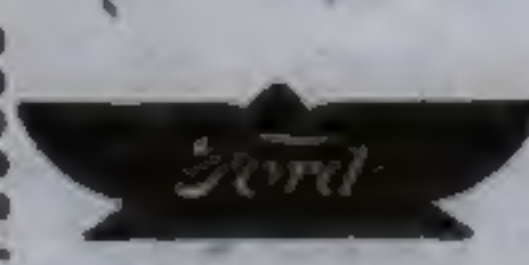

Has this a significance for you?

LIME CAUSES INCREASE IN CHOP YIELDS

As an average of 10 crops of wheat in the five-rotation at the Ohio Experiment Station, an expenditure of \$5 for lime once in the rotation has resulted in an average gain of 91647 an acre for all five crops according to results reported in Bulletin 286 on Wheat Experiments just published by the Experiment Station at Wooster.

From one to two tons of ground limestone is applied per acre in the spring to the corn crop. Liming has returned 202 percent on the investment where nitrogen in complete fertilizer was carried in nitrate of soda. It has returned 261 percent when used with manure, and 224 percent in connection with acid phosphate alone, and has even paid when used with basic slag. On the
